

M SERIES PANEL UNIT

Compact and Portable!

When you need to install a permanent, continuous duty solution for your offline filtration, the PU-M Panel Unit is the perfect solution. Available in a variety of sizes, it will suit any space requirement you may have. These filtration systems have all the power needed for filtering oil viscosities up to 600cSt (ISO VG 680) at 100F within ambient temperature ranges of -15F to 150F. All Y2K products are 100% customizable upon request.

Typical Applications

- Filtering contaminated systems
- Collecting oil samples for analysis
- Dispensing new oil
